P1 dossier - Team captain / mission commander

Opening, crash alert, final synthesis; protect teaching and approve fallback decisions.

Your front-of-room cues:

00:00-00:05 | Cold open | slides 1-5

00:39-00:42 | Crash alert | slides 33-34

01:44-01:45 | Certification and close | slides 87-88

Across the whole lesson: P8 handles the room; P3 sends a two-minute warning. Do not troubleshoot phones while narrating.

Your zone: No fixed zone: captain at front

Preparation: Rehearse the ball demonstration safely, the 33-34 narrative bridge, and a 60-second closing. Check all nine attendance and handoff readiness.

Rehearsal: deliver your assigned segment at its budget, practise the incoming and outgoing handoff, then rehearse your secondary task while another presenter speaks.

Bring: this dossier, assigned speaker notes, a pen and cue timer if applicable. Know where the paper response cards and student dossiers are stored.

Success: students can explain the concept or complete the task; your partner receives a clear handoff; the mission lead and host never compete for the same device.

P1 - slide cues 1-5

Slide 1: OBJECTIVE:
Set the atmosphere while students enter.
TRANSITION:
When most students are seated -> next slide (SYSTEM START).

Slide 2: OBJECTIVE:
Welcome the class and call one volunteer.
TRANSITION:
Click when the volunteer is beside you -> THE BALL QUESTION.

Slide 3: OBJECTIVE:
Make students commit to an answer about energy BEFORE any teaching (curiosity gap).
TRANSITION:
Click -> reveal ENERGY LAB.

Slide 4: OBJECTIVE:
Frame the whole lesson as one engineering mission.
TRANSITION:
'But engineers never work alone. So - who are you?' -> TEAMS.

Slide 5: OBJECTIVE:
Explain teams and Energy Points (EP) in 20 seconds.
TRANSITION:
P1: 'Your first specialist is our Energy Engineer.' -> P2 takes over.

P1 - slide cues 6-9

Slide 33: OBJECTIVE:
Turn the page (literally) with a jolt of drama - new mission phase.
TRANSITION:
'Here's the mission brief.'

Slide 34: OBJECTIVE:
State the investigative question the whole Act answers - this is the real answer to Get Ready Question 2 from the start of the lesson.
TRANSITION:
'Let's open the file - six questions before we read.'

Slide 87: OBJECTIVE:
Mark closure of the mission before the human conclusion.
TRANSITION:
'Bring back the ball.'

Slide 88: OBJECTIVE:
Close the frame story with the same ball from minute zero.
TRANSITION:
End of session.

P1 - preparation, rehearsal and fallback

Study: Rehearse the ball demonstration safely, the 33-34 narrative bridge, and a 60-second closing. Check all nine attendance and handoff readiness.

Partner check: rehearse with P9 for screen cues, P3 for timing and P8 for zone cover. P1 confirms that your secondary duty can continue without distracting from the active speaker.

During missions: follow the fixture-derived private answer sheets. Mentors listen to company discussion, give no answer before CLOSE, and check that one captain submits.

During teaching: circulate quietly, identify one misconception, and feed it to the lead at the next pause. During listening: no side explanations.

On failure: tell P1 what failed and P9 which question is affected. Do not independently restart, reseed, create another session or change scoring. Use the emergency section.

Personal rehearsal acceptance: name your incoming presenter; state your first line; perform the exact screen cue; finish within budget; give the next presenter a named handoff; complete one simulated failure.

After rehearsal: record actual elapsed time and unresolved questions. Confirm the official audio limitation, final 300 EP rule and post-class writing completion with your teammates.

P1 - one-page quick reference

Team captain / mission commander

Primary: Opening, crash alert, final synthesis; protect teaching and approve fallback decisions.

Cues:

00:00-00:05 | Cold open | slides 1-5

00:39-00:42 | Crash alert | slides 33-34

01:44-01:45 | Certification and close | slides 87-88

Secondary: P8 handles the room; P3 sends a two-minute warning. Do not troubleshoot phones while narrating.

Zone: No fixed zone: captain at front

Before class: Rehearse the ball demonstration safely, the 33-34 narrative bridge, and a 60-second closing. Check all nine attendance and handoff readiness.

Handoff: finish one explanation, name the next stage and presenter, wait for acknowledgement. P9 changes the screen; P3 confirms time.

If stuck: ask P1 for the decision, P9 for devices, P8 for the room. At 30 seconds of unresolved connectivity, use the paper fallback on the same unscored question.

Remember: one submitting phone per company; no early answer reveal; Task 7 gap 5 ungraded; final B-D-A-C = 300 EP; writing is a draft now and completed after class.
