6 WRITING PLAN (TASK 9 · 100–120 WORDS)

DESIGN: *What are you changing?*

ENERGY: *Stopping distance / energy / force?*

SAFETY: *Why does it reduce injuries?*

7 FINAL REVISION

POTENTIAL vs KINETIC

still · stored · position

moving · motion

(sketch or write your own example)

STRETCH → STOP.DIST.↑ → FORCE↓ → INJURIES↓

seatbelt stretches
↓
stopping distance increases
↓
force / Gs decrease
↓
injuries decrease

BEFORE THE EXAM, MAKE SURE YOU CAN…

explain potential vs kinetic energy · define all 10 vocabulary words · summarise the Background/Results/Conclusions of the seatbelt test · use safer than, going to, present continuous for future, can, and the passive correctly.
